

REMARKS

1. Claims 1-16 are pending. This communication amends claims 6 and 17.

Reconsideration of this application is respectfully requested.

2. Claims 1-5 and 11-16 stand allowed.

3. Claims 6-10, 17 and 18 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In particular, claims 6 and 17 are unclear.

In response, claim 6 and 17 have each been amended to recite:

a first transistor coupled to each of the organic light-emitting diode structures; and
a second transistor coupled to each of the organic light-emitting diode structures

Thus, currently amended claims 6 and 17 particularly point out and distinctly claim the subject matter which applicant regards as the invention. In view of the foregoing, withdrawal of this rejection is respectfully requested.

4. Since claims 6-10, 17 and 18 have been rewritten to overcome the rejection under 35 U.S.C. 112, second paragraph, and contain patentable subject matter, these claims are now in condition for allowance.

5. Favorable reconsideration of this application is respectfully requested as it is believed that all outstanding issues have been addressed herein and, further, that

claims 1-18 are in condition for allowance. Should there be any questions or matters whose resolution may be advanced by a telephone call, the examiner is cordially invited to contact applicants' undersigned attorney at his number listed below.

6. The Commissioner is hereby authorized to charge payment of any filing fees required under 37 CFR 1.16 and any patent application processing fees under 37 CFR 1.17, which are associated with this communication, or credit any overpayment to Deposit Account No. 50-2061.

Respectfully submitted,
